

HRC'S PROJECT THRIVE 2023 BACK TO SCHOOL CHECKLIST

TO PROMOTE SAFETY, INCLUSION, AND WELL-BEING
FOR LGBTQ+ STUDENTS & YOUTH

**PROJECT
THRIVE**
A NATIONAL CAMPAIGN TO SUPPORT LGBTQ YOUTH

All educators and youth-serving professionals have an ethical obligation to ensure that each young person feels safe, welcomed, and affirmed at school and in their out-of-school programs. Unfortunately, lesbian, gay, bisexual, transgender, and queer (LGBTQ+) youth continue to experience disproportionate rates of rejection, bullying, and violence, which impact their school attendance, academic performance, and overall well-being. The Center for Disease Control and Prevention's 2021 Youth Risk Behavior Surveillance (YRBS) data and HRC's [2023 Youth Report](#) exemplify that LGBTQ+ youth urgently need the support and affirmation of adults in their lives.

HRC Foundation's analysis of the CDC's [2021 Youth Risk Behavior Surveillance Survey](#), which only had data available by sexual identity at the time of this release, found:

- + **Prior year bullying at school** was reported by **23%** of lesbian, gay, bisexual, and queer (LGBQ+) youth, including **26%** of lesbian or gay youth, **24%** of bisexual youth, **15%** of questioning youth, and **29%** of other non-heterosexual youth compared to only **12%** of their heterosexual peers.
- + **Skipping school because they felt unsafe** at or on their way to school was reported by **14%** of LGBQ+ youth including **13%** of lesbian or gay youth, **14%** of bisexual youth, **10%** of questioning youth, and **16%** of other non-heterosexual youth, compared to only **7%** of their heterosexual peers.
- + **Depressive symptoms** were reported by **69%** of LGBQ+ youth, including **62%** of lesbian or gay youth, **72%** of bisexual youth, **62%** of questioning youth, and **72%** of other non-heterosexual youth compared to just **35%** of heterosexual youth.
- + **Seriously considering attempting suicide** was reported by **45%** of LGBQ+ youth, including **40%** of lesbian or gay youth, **50%** of bisexual youth, **35%** of questioning youth, and **48%** of other non-heterosexual youth compared to just **15%** of heterosexual youth.

HRC's [2023 Youth Report](#) found:

- + **Over half (59.4%)** of LGBTQ+ youth have been **teased, bullied, or treated badly** at school at least once in the prior year. **More than a third (37.1%)** of LGBTQ+ youth were bullied due to their sexual orientation and **half (49.7%)** of transgender and gender non-conforming youth were bullied due to their gender identity and/or gender expression.

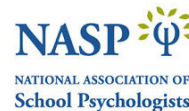

- + **More than half (55.1%)** of LGBTQ+ youth screened positive for depression.
- + **Two-thirds (63.5%)** of LGBTQ+ youth screened positive for anxiety.
- + **3 in 10 (30.9%)** of LGBTQ+ youth screened positive for severe psychological distress.
- + While **more than 9 in 10** LGBTQ+ youth agree/strongly agree that they are **proud** to be part of the LGBTQ+ community, **1 in 4 (23%)** wish they were not LGBTQ+.

These concerning findings provide the stark reality for LGBTQ+ youth today and must drive K-12 educators/administrators and all professionals who interact with youth to work collaboratively to address the many disparities including the root of the issue, dismantling anti-LGBTQ+ bias and stigma, and provide safe inclusive environments in which all individuals can thrive.

This Back to School resource was co-produced by the Human Rights Campaign Foundation in partnership with many of the nation's leading national educational and mental health professional associations and youth-serving organizations and **represents more than 4.9 million professionals** from across the country. The checklist provides a research-based guide for K-12 educators and other youth-serving professionals as they **proactively work to ensure safe, welcoming, and inclusive schools and communities for LGBTQ+ youth.**

When youth feel safe and connected at school and in their community, they are less likely to miss school and more likely to have higher GPAs and graduate college and be career ready. Therefore, if you are not able to check off all of the items below, we encourage you to work with your colleagues to advocate for changes to policies and practices that are **evidence-based** and proven to create safe, welcoming, and inclusive schools and organizations for all youth to thrive.
